

**NTP Satellite Symposium: Pathology Potpourri**

*(Free Event; Registration Required)*

**Saturday, October 17**

**9:00 AM-4:30 PM**

**Chair: Susan A. Elmore, MS, DVM, DABT, FIATP, DACVP, NTP and NIEHS,**  
*Research Triangle Park, NC*

The object of this interactive symposium is to provide continuing education on interpreting pathology slides, to generate lively and productive conversation, and to have a good time. During each talk, the speakers will project a series of images of lesions on one screen with a choice of diagnoses/answers on a separate screen. The members of the audience with wireless keypads will then vote and the voting results will be displayed on the screen. After each voting session, time is allowed for discussion.
