

## **Career Development Premeeting Workshop**

Sunday June 22, 2008

San Francisco Hyatt Regency

*(Free to meeting registrants\*)*

## **Effective Communication for the Toxicologic Pathologist**

*Presented by the STP Career Outreach and Continuing Education Committees*

Communicating effectively with colleagues and customers outside our discipline is an important aspect of applying our expertise. Appropriate and intelligible communication of our data—be it oral or written—largely determines our influence within our respective organizations and the scientific community at large. This symposium will provide an opportunity for experienced members of our Society to share this information with other members of the profession.
