

# Environmental Toxicologic Pathology

## 2017 STP Regional Meeting

The Society of Toxicologic Pathology's Environmental Toxicologic Pathology Special Interest Group will be chairing a Regional Meeting entitled "Environmental Toxicologic Pathology" on Thursday, April 20, 2017, at the National Toxicology Program/NIEHS headquarters in Research Triangle Park, NC. The primary goal of this meeting will be to enhance awareness and understanding of environmental toxicologic pathology by exposing attendees to a variety of interesting and currently relevant topics presented by prominent experts from across the country. There will be no registration fee and break time refreshments will be provided.

9:00-9:50 AM - Keynote Address

James Swenberg, PhD, DVM: "Keeping up with Knowledge from Formaldehyde and Genetics."

*9:55-10:15 AM - Morning Break*

10:20-11:05 AM - Wanda M. Haschek-Hock, BVSc, PhD, DACVP, DABT, FIATP: "Consumption of Thermally-Abused Frying Oil Increased Metastatic Lung Disease in a Mouse Breast Cancer Model."

11:10-11:55 AM - Jack R Harkema, DVM, PhD, DACVP: "Silica-Triggered Autoimmunity and Dietary Lipid Interventions: Studies in Lupus-Prone Mice."

*12 Noon-12:55PM - Lunch*

1:00-1:45 PM - Laura S Van Winkle, PhD DABT: "Inhaled Ultrafine Particles and the Developing Lung"

1:50-2:35 PM - Trace Peterson, DVM, PhD: "Environmental Toxicology and Transgenic Zebrafish Models."

*2:40-2:55 PM - Afternoon Break*

3:00-3:45 PM - Jeffrey Everitt, DVM: "Aye-ayes and Avocado Toxicity: Role of Modifying Environmental Factor(s)"

3:50-4:25 PM - Jeffrey C. Wolf, DVM, DACVP: "Assessing the Credibility of Histopathology Data in Environmental Toxicity Studies."
