Regeneron Toxicologic Pathology Externship Program

Company Name: Regeneron Pharmaceuticals

Location: 777 Old Saw Mill River Road
Tarrytown, NY 10591-6707

Website: https://www.regeneron.com/

Regeneron Pharmaceuticals’ Department of Drug Safety and Pharmacometrics is offering a 2-week externship in toxicologic pathology. This externship will take place at Regeneron's corporate site which is focused on all phases of drug development and is staffed with 7 board-certified Anatomic Pathologists with innovative microscopic imaging and analysis facilities.

In this role a typical day might include:

- Microscopic pathology experience with a variety of strains of rodents (mouse and rats)
- Experience with digital pathology and image analysis in the context of discovery and preclinical safety assessment
- A preview of the activities of a toxicologic pathologist in a pharmaceutical company
- Access to transgenic rodents which provides a strong background in animal species that are not traditionally assessed in an academia residency training

This role might be for you if:

- You are currently a resident in an anatomic pathology training program or are a Veterinary Pathology fellow (who has previously completed a pathology residency)
- You wish to further your training in and exposure to toxicologic and rodent pathology
- You are a highly motivated fourth year veterinary students with experience in pathology and a demonstrable interest in toxicologic pathology.
- You are highly self-motivated, and have a clear and demonstrable interest and ongoing experience in anatomic pathology, particularly histopathology.

Applicants should be currently enrolled in a veterinary anatomic pathology residency with at least 1 year of experience evaluating diagnostic case material or be employed in a fellowship. Veterinary student candidates should be enrolled in an AVMA-accredited veterinary college, be in their 4th year. This is a paid externship (housing is not provided). Applications should include curriculum vitae, contact information for 3 references, and a letter of interest, describing professional background, interests and goals, and pathology experience and preparation.

Deadline to apply for 2023 externships: January 3, 2023
